DETAILED ACTION

Notice to Applicant

1. This communication is in response to the 8/10/07. Claims 97-141 are pending.

Allowable Subject Matter

2. Claims 97-141 are allowed. The following is an examiner's statement of reasons for allowance in light of Applicant's arguments.

Claim 97 is directed to "an opt-in database containing user email addresses for registered users who have chosen to receive emails containing music and entertainment information, the music and entertainment information including information regarding new releases and concert schedules; a radio station database containing information regarding a plurality of radio stations, each radio station having an associated zip code and radio format, the radio station database information regarding each radio station's associated zip code and radio format; a song information database containing information identifying songs and albums each song having an associated song status and song genre format, each album including an associated album status and album genre format, the song information database including information identifying the song status and song genre format for each song and the album status and album genre format for each album, the song information database including consumer preference information from registered users for the songs and albums included in the song information database; and a processor adapted to cause the computer system to allow a non-registered user to register as a registered user of

the computer system, to allow registered users included in the user database to input consumer preference information regarding the songs and albums included in the song information database, to allow registered users included in the user database to recover lost user passwords from the computer system, to allow subscribing clients to search the consumer preference information stored in the song information database based on predetermined search parameters, and to allow subscribing clients to generate reports using the consumer preference information stored in the song information database based on predetermined reporting parameters".

The closest prior art of record, Kelly (5,913,204) discloses method and apparatus for surveying music listener opinion about songs.

Cook et al. (6,338,044) discloses personal digital content system.

However, none of the cited prior art discloses above nor fairly teaches /suggests "an opt-in database containing user email addresses for registered users who have chosen to receive emails containing music and entertainment information, the music and entertainment information including information regarding new releases and concert schedules; a radio station database containing information regarding a plurality of radio stations, each radio station having an associated zip code and radio format, the radio station database information regarding each radio station's associated zip code and radio format; a song information database containing information identifying songs and albums each song having an associated song status and song genre format, each album including an associated album status and album genre format, the song information database including information identifying the song status and song genre

format for each song and the album status and album genre format for each album, the song information database including consumer preference information from registered users for the songs and albums included in the song information database; and a processor adapted to cause the computer system to allow a non-registered user to register as a registered user of the computer system, to allow registered users included in the user database to input consumer preference information regarding the songs and albums included in the song information database, to allow registered users included in the user database to recover lost user passwords from the computer system, to allow subscribing clients to search the consumer preference information stored in the song information database based on predetermined search parameters, and to allow subscribing clients to generate reports using the consumer preference information stored in the song information database based on predetermined reporting parameters”.

Claims 98-141 incorporate the feature of claim 97 through its dependency, and are also allowed for the same reasons given above.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Wayne Beavers (Reg. No. 28,183) on 7/3/07. During the interview, Attorney agrees to do the followings:

In claim 103, line 1 "the software program" was changed to -the processor-.

In claim 105, lines 13 and 19 "the software program" was changed to -the processor-.

In claim 107, line 8 "the software program" was changed to -the processor-.

In claim 114, line 19 "the software program" was changed to -the processor-.

In claim 115, line 6 "the software program" was changed to -the processor-.

In claim 116, line 18 "the software program" was changed to -the processor-.

In claim 117, line 2 "the software program" was changed to -the processor-.

In claim 118, line 8 "the software program" was changed to -the processor-.

In claim 119, line 17 "the software program" was changed to -the processor-.

In claim 120, line 3 "the software program" was changed to -the processor-.

In claim 126, line 11 "the software program" was changed to -the processor-.

In claim 128, line 4 "the software program" was changed to -the processor-.

In claim 129, line 18 "the software program" was changed to -the processor-.

In claim 130, lines 2 and 6 "the software program" was changed to -the processor-.

In claim 131, line 11 and 14 "the software program" was changed to -the processor-.

In claim 133, line 18 "the software program" was changed to -the processor-.

In claim 141, line 19 "the software program" was changed to -the processor-.

No further questions were discussed.

4. A search has been conducted for a foreign prior art, however, none has been found.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
